Election/Restrictions

1. Applicant's election without traverse of claims 1-3 and 11 in the reply filed on 4-14-2006 is acknowledged.

2. Claims 1-3 and 11 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for matching sale conditions with offer conditions, wherein the sales conditions are equal to the offer conditions, does not reasonably provide enablement for matching sales condition with offer conditions . The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims.

Claim Rejections - 35 USC § 112

3. Claims 1-3 and 11 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite in scope. While the preamble is directed to an apparatus, the claim limitations seem to be directed to a method of use of the apparatus. Clarification is requested.

In claim 1, the terms "offer conditions" and "sales conditions" are confusing.

Clarification is requested as to the type of auction claimed (e.g., a reverse auction), the types of conditions transmitted (e.g. price, quantity), and from whom the information is generated (buyer or seller).

In claim 1, the matching algorithm is vague and indefinite. Clarification is requested.

In claims 1, the offer information registering unit is vague and indefinite. See the conditional limitations. Also, the "non-agreement" is vague and indefinite.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Art Unit: 3624

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1-3 and 11 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Carlton-Foss.

The prior art teaches claims 1-3 and 11¹, including the purchaser terminal, the sales information search unit, an offer information registering unit. (See column 3, ll. 14-66) Note that the ranking means reads on the sales information search unit. Note further, the offer information registering unit reads on the matching engine/security manager that connects the request database and the bid database.
